GNFAC Avalanche Forecast for Sun Nov 30, 2014

AVALANCHE WARNING

ISSUED ON November 30 2014 AT 04:30 am

We are issuing a **Backcountry Avalanche Warning for the mountains around Cooke City.** Heavy snowfall and strong winds will create widespread instability and the avalanche danger is rated **HIGH** on all slopes. Very dangerous avalanche conditions exist and both natural and human triggered avalanches will be likely. Travel in avalanche terrain is not recommended and avalanche runout zones should be avoided.

Go to www.mtavalanche.com/current for current avalanche information.
