Natural avalanches in Hyalite

Date
Tue, 03/28/2023 - 02:25
Activity
Snowboarding

On my walk up to divide today 3/28 I noticed a few small storm slabs that broke on the west side of the main fork of hyalite off the summer trail. This area had similar storm slabs that broke back in mid February during a large storm

up in the alpine there were no avalanches to report

Region
Northern Gallatin
Location (from list)
Hyalite - main fork
