West facing slope, Hyalite canyon

NORTHERN GALLATIN RANGE
Northern Gallatin
12/20/2020
Code
SS-N
Aspect
W
Latitude
45.43380
Longitude
-110.92500
Notes

From obs: "We were ice climbing below Divide Peak today. I heard and saw a natural avalanche across the basin on the west facing slopes below Overlook Mountain, I also observed recent avalanche debris below “The G Spot” which is in a couloir below Overlook. Even though there isn’t any recent snow, the snow that is there is getting actively blown around."

Number of slides
1
Number caught
0
Number buried
0
Avalanche Type
Soft slab avalanche
Trigger
Natural trigger
Problem Type
Wind-Drifted Snow
Slab Thickness units
centimeters
Single / Multiple / Red Flag
Single Avalanche
Advisory Year
20-21
