Whumpf at Quake Lake

Quake Lake
Lionhead Range
2/28/2023
Code
Latitude
44.85240
Longitude
-111.39200
Notes

Pretty mild observations: north ridge above Hebgen, some woomfing on the ridge pretty subtle. This was yesterday morning, on the ridge top. Tons of new snow. Also point release in the slide area, north face of slide scare, above quake lake, visible from the road new in the last couple of days. Obviously natural trigger there.
