New snow avalanches in Cooke

COOKE CITY
Cooke City
1/10/2023
Code
SS-N-R1-D1-O
Latitude
45.02020
Longitude
-109.93800
Notes

We saw 2 avalanches that looked to involve new snow. One was on Wolverine on the face and another was on Henderson Ridge under the radio hut. They did not propagate far and wind-loading may have been a factor on the Henderson Ridge slide.

Number of slides
2
