Natural avalanche, Republic Creek

Date
Sat, 03/11/2023 - 16:15
Activity
Skiing

From obs 3/11/23: "Saw a deep crown today in Republic Valley. This is peak 10383 (just north east of republic peak). Crown looks about 100 feet wide and probably 5 feet deep. Couldn’t see debris or how far it ran."

Region
Cooke City
Location (from list)
Republic Creek
Observer Name
Jake Mundt
