Large Collapse Above Wyoming Creek, Cooke City

Wyoming Creek
Cooke City
2/20/2024
Code
Aspect
W
Latitude
44.98370
Longitude
-109.95800
Notes

From obs: "My ski partner triggered a big collapse/woomph from the our skin track, heading up from WY Creek back toward Republic Creek on an W facing slope. It was the second time we worked over this skin track, and it propagated to where I was at least, about 30 yards above them. I felt/heard the collapse 1/2 to 1 second after they triggered it."
