Skier triggered avalanche in Bradley's Meadow

Bradley Meadow
Bridger Range
1/6/2021
Code
SS-AS-R1-D1.5
Elevation
8000
Aspect
S
Latitude
45.83220
Longitude
-110.92800
Notes

I was skiing down the apron at Bridger and noticed this slide on Bradley's that appeared to be skier triggered. Picture's were taken at about 2pm. I don't believe this activity was there when I came down the apron earlier in the day around 11:45. I talked to patrol about it and they had not heard anything about it at the time. It appeared both tracks going in, came out. Thanks for all the work you guys do!
