

Stable results at Bacon Rind

Date

Sun, 11/13/2022 - 12:15

Activity

Skiing

Dug a pit at the bottom of the upper meadows at Bacon Rind. 8700ft, got no result for an individual column or extended column, even a shovel shear produced no result. New snow from last weeks storm cycle bonded very well to the old snow from the first October storm. 60-80cm in upper meadows without much of any wind effect.

Region

Southern Madison

Location (from list)

Bacon Rind

Observer Name

Colton Ellingson
