Activity

Skiing

I just skiied up Irma into lower Republic Creek. The only tracks I saw were a griz, a moose and Beau's. The snow is awesome! About 6-10" silky since I was up there a few days ago. I haven't dug around yet, but it looks like 3 layers. 4-6" of ice/frozen slush at the bottom. Then a thicker dense pow from 2-3 weeks ago. And now some lighter stuff on top. About 16-18" total snowpack on the trail up from Irma a little ways. I'm aiming for the low angle meadows tomorrow.

Region

Cooke City

Location (from list)

Republic Creek
