Natural cornice fall, collapses, Mt Blackmore

Mt Blackmore Northern Gallatin 1/3/2021 Code C-NC-R1-D1.5 Elevation 10000 Aspect N Latitude 45.44440

-111.00400

Longitude

Notes

From obs: "Skied Mt Blackmore this morning. Very windy up in the basin, but calm along the ridgeline. Lots of signs of wind-loading and drifting on most slopes. I felt/heard 3 collapses while ascending the trees up to the east ridge. Saw a debris pile on the N face, likely from a cornice fall in the last 24hrs."
