

Back side of Lick Creek

Date

Tue, 01/05/2021 - 12:00

Activity

Skiing

We observed 4 whumpfs while touring back up the back side of lick creek. Most were minor but one shot a 30 foot crack out from the tip of my ski. We dug 1 put on that aspect and got a ECTX as a result.

Region

Northern Gallatin

Observer Name

Nick Roe
