

Beehive Basin East facing slope

Date

Sun, 02/20/2022 - 14:00

Activity

Skiing

Dug a pit right as snow began to fall on an East Facing slope that we then skied. ~175 cm deep, without any pronounced weak layers to the ground. In sun affected areas there was a 2-4 cm sun crust. Test results were ECTN

Region

Northern Madison

Location (from list)

Beehive Basin

Observer Name

Colten Crowe
