

Cooke Nov 11/12

Date

Sat, 11/12/2022 - 23:45

Activity

Skiing

Skied around Mt. Henderson the last 2 days-

No avalanche activity observed.

3 snow profiles. ECTP's in 2 of 3 snowpits.

Also, we experienced at least 6 large collapses while touring the last 2 days, often after 10+ people up the same skin [track](#).

Region

Cooke City

Location (from list)

Henderson Mountain
