

Bacon Rind - Big Ole Facets

Date

Mon, 02/19/2024 - 03:40

Activity

Skiing

the snow is still bad! We were on top of bacon rind in the YNP, and dug a pit for fun and education of one of our party members. Experienced some BIG whoomphs on the way up and got very unstable scores. A Q2 CT19 and ECTP24, both around 85cm down into the snow pack (on the top of the very faceted layer we're seeing all over the advisory area.

Best,

Joe

Region

Southern Madison

Location (from list)

Bacon Rind
