Notes

HS-ASr-R1-D1-I

Frazier Basin, 8500', North facing, 35-37 degree slope, 1pm

30' wide, 6" deep, ran 150', In the love chutes, Frazier Basin

1Finger [wind slab](#) sitting on a 4Finger hardness break. Triggered from 30' above the crown, ran slowly. A majority of the [slab](#) rode back up on the surface 50' below the crown. [Bed surface](#) felt like small grained facets under skis, didn't look too close. Small and localized cracks and collapses were felt and seen throughout the day in the same location.
