

Frazier Basin Avalanches

Frazier Basin
Bridger Range
2/19/2025
Code
SS-N
Elevation
9000
Aspect
S
Latitude
45.92330
Longitude
-110.98000
Notes

Toured out to Frazier Basin and turned around seeing widespread avalanches and active [wind loading](#). Despite our pits on the Throne the day before showing no weak layers, the amount of [wind loading](#) and potential for slabs over density changes gave us pause. Good skiing and sledding down low.

Number of slides
8
Number caught
0
Number buried
0
Avalanche Type
Soft slab avalanche
Trigger
Natural trigger
Problem Type
Wind Slab
